Model 220.170/175

Model 221.171

Model 230.475

Equipped with 722.9 NAG2 (7G-Tronic) Transmission

Diagnostic Tree

Please be advised that the EDAC 722.9 Diagnostic Tree has recently been updated and is constantly refreshed to provide our service network with the most up to date information. The diagnostic tree can be found by the following path:

Netstar → Service → STAR TekInfo → EDAC → Diagnostic guide for 722.9 (NAG2) Transmission

Note: Please remember to have all of the EDAC required information available prior to contacting the EDAC for assistance. All of the required documentation must be retained in the customer file as well as returning the original print outs with the returned parts. Failure to comply may result in the warranty claim being denied.

This bulletin has been created and maintained in accordance with MBUSA-SLP S423QH001, Document and Data Control, and MBUSA-SLP S424HH001, Control of Quality Records.
